See Attached

Toastmasters honors and recognition:
Completed two paths in their entirety with one additional path to complete that's pending one project. Assisted in an HPL Youth Leadership Workshop in 2021. Won two Tripple Crown Awards In 2020/2021

Relevant work experience and how it relates to Toastmasters and your role as a District leader:
My current work position for the past twenty eight ears has allowed me to be the people person I am. I operate in putting others before myself. Toastmasterss has truly instilled in me the core qualities of being an effective leader. The past six months have been most impressive in regards to my personal growth and how the growth is overflowing into other areas fo my life. My work ethics have evolved as a result.

What experience do you have in strategic planning?
My most impactful involment in Strategic Planning was in 2017-2018 where I served as PTO President at ILTX AGPH Charter School. I planned with my board of directors along with the Principle and Vice Principal to make sure that high school students didn't miss out on the extracurricular activities that were offered in public schools. I admit it was task indeed but, one that I loved because I saw the impact it made not only on the students but on the teachers as well. The skills learned and the tenacity gained as PTO President set the tone for the growth I've gained as Area Director.

What experience do you have in the area of finance?
Although I have never worked in the finance department, I do have thirty plus years of experience in general accounting where there is always a connection with finance. I'm currently an Incentive Accountant where I crunch numbers montly to make sure our field employees in the US and Latin America are paid based on production. Definitely a job that keep me alert.

What experience do you have in developing procedures?

Without development of procedures in place, I personally feel that it would somewhat be impossible to make any plan effective. Whenever something is put together in writing it has the ability to become tangible. Upper Management and I draft new plans often to keep our employees on their toes with hopes of helping them personally gain internal growth.

What lessons did you learn from previous leadership positions?

My three biggest lessons learned in any leadership role held are:

1. Commitment Is A Must
2. Authenticity and Encouragement Are Key
3. Willingness To Share With Others What Was Shared With You

Why do you want to serve as a District leader?

I want to serve as a District leader, first of all to challenge myself to be more organized and to work harder at being more time conscience. I fell that this role will also allow me to gain additional personal growth but, most importantly it will give me another chance to embrace the Toastmaster comradery on another level.

In your opinion, what are the District mission's major objectives and how would you work to achieve them?

I feel that the District's mission is to take every Toastmaster under their wings for a short period of time to allow us to tap farther into the person we really are. That we identify with the gifts that we have and use them not only to gain on a personal level but also to...Give Back and Impart into others what....We've Gained

Additional information about yourself:

Living Purposely Is My Ultimate Goal. It's All About Growth!
